

### EBC 55 Gallon Drum Kit Mix Instructions

- Fill a 55 gal drum with 27.5 gal of water
- Add **EBC Part A** in the 55 gal drum
- Add **EBC Part B** into the 55 gal drum. Slowly stir until completely poured
- Fill the remainder of the 55 gal drum with 17.5 gal of water. **Slowly** stir while filling until **Part A** and **Part B** are evenly mixed with water.

**\*\*Note.** Use low water pressure when filling with water. Too much pressure will create unnecessary suds/foam during mixing process.
